## PEOPLE'S TICKET!

For Magistrate:

CHAS. W. ALEXANDER.  
JULIUS P. ALEXANDER.  
A. BURWELL.  
A. H. MARTIN.  
B. F. MORROW.  
A. H. CRESWELL.

For Clerk:

CHAS. W. BRADSHAW.

For School Committee:

DAVID PARKS,  
D. G. MAXWELL,  
WM. E. STITT.

W. C. & E. R. R.

We gave the proceedings of the Stockholders yesterday morning; we now write only to express our satisfaction at the result. Charlotte will now be the headquarters of the Road, and we believe that the interests of both divisions will receive equal care and attention. The Road west of Charlotte has been neglected, and but for the efficiency and energy of Mr. B. S. Quinn would long since have been past using. Now that gentlemen in General Superintendent we feel like congratulating our friends in the Western Division on the prospect of having the work on that end pushed forward. This Road is a valuable feeder to this city, and we look forward to its completion as one of the means that is destined to accelerate her growth. Hence we are pleased to have the President, Secretary and Treasurer, and two Directors, residents and property-holders here.

Everybody knows that the struggle in the Stockholders meeting was not political, but directly between Wilmington and Charlotte; and of course we are glad Charlotte won; and besides we agree with our neighbor of the Democrat in thinking the officers elected will be as efficient and as reliable as those of the Wilmington.

**The Chase Presidential Movement.**  
That there is a movement on foot throughout the Southern States, and some of the Middle States, to get up a Chase party within the ranks of the Republican organization, is too apparent to leave any room for doubt. What is called the Conservative movement in the Southern States, which has just resulted in the election of Governor Walker in Virginia, and has produced the nomination of Senter in Tennessee and Hamilton in Texas, is but the forerunner of the nomination of Chief Justice Chase as a "Conservative" candidate for the Presidency in 1872. The Democratic party will not attempt to put up another candidate for the Presidency, but will support Judge Chase, if nominated by a Conservative Convention. An intelligent Washington correspondent of the Cincinnati Gazette, speaking of the result in Virginia, says: "From first to last Chief Justice Chase was consulted, and for much of the time he was on the ground in person. His preference for Walker did more than anything else to divert the negro vote from Wells, and it was the division of their vote that elected Walker. The election may be regarded as the first success of the Chase movement for the next Presidential campaign, which has already much wider ramifications than many believe. In Virginia, Texas, Tennessee, Mississippi, Maryland, and New York, it has already manifested itself."

The means to use are not all open to the eye of the public. A year previous to the Chicago Convention the military authorities in Virginia discovered that the negro population of that State was being organized into secret political leagues by persons traveling over the South at Government expense ostensibly as inspectors of schools, but really to organize these leagues in the interest of Mr. Chase for the Presidency. The same organization, formed in the same way, was traced by the military authorities in other parts of the South. It still exists in Virginia.

"Within a short time it has made its appearance in Maryland. There it is a regular organization, with oaths, signs, and a constitution. The same agent of the Government who helped to organize the blacks in Virginia and other parts of the South are active in Maryland now, and the present step is to unite the blacks of that State to the Bond-Republicans, expecting when the fifteenth amendment is ratified to carry that State for Chase."

"In New York city the movement has been both vigorous and active. There its object has been to secure the primaries, and to be able to designate the next State Central Committee."

publican Committee, which holds on for two years; and if it could be constituted as these men desire, it would have two of the most important years of the campaign in which to work. Well-informed Republicans of New York city, who are earnestly opposed to Mr. Chase, agree that the danger is very great that this movement will carry the city and enough of the State to secure the Central Committee."

Baltimore American (Radical.)

**The Sleeping Girl.**  
Miss Susan Caroline Godsey, the sleeping wonder, died at her mother's home, some eight miles from Hickman, on Wednesday, the 14th inst.

The history of Miss Godsey is well known to the public, a statement of her wonderful condition having been published extensively by the press of the United States. At the time of her death, Miss Godsey was about twenty-six years of age, and had been asleep as described, about fourteen years. The existence of this wonderful case of coma, or preternatural disposition to sleep, has been doubted by many, but the fact is indisputable. Indeed, some twelve months ago, Miss Godsey was taken to Nashville and other places for exhibition, but we understand many, even of the physicians of Nashville, looked upon the case with suspicion. The history of the case is, briefly: When about twelve years of age, she was taken with a severe chill, and treated accordingly by her physician. As her fever, which followed her chill, subsided, she fell in a deep sleep, in which condition she has remained ever since, except at intervals. It was her custom at first to awaken regularly twice in every twenty-four hours each day; but of later years she awoke oftener, so much that many considered it an indication of her final recovery. She would remain awake five, or ten, or perhaps fifteen minutes, and gradually drop off to sleep again. When asleep it was utterly impossible to arouse her. She never complained of any bodily pain, though when asleep she was very nervous at times, and appeared to suffer considerably by the violent twitching and jerking of her muscles and limbs, and her hands clenched tightly as if enduring severe pain, but when awake she did not appear to suffer, except from a drowsy, gaping inclination and persistent efforts to cleanse her throat of phlegm. She generally passed into sleep through violent paroxysms, which would last perhaps five minutes, and she would then sleep awhile as calm and quietly as an infant. Miss Godsey was of medium size, and her limbs and muscles were well proportioned and developed.

Miss Godsey on the day she died indulged in a little prophesying, which we give as related for what it is worth. She said the "sun would be a total eclipse on the 7th of August," (this is remarkable, because parties assert that she could have had no knowledge that this was according to calculation,) "and that the sun would never shine as bright after that day. That this would indicate the end of the world which was speedily approaching."—Hickman (Ky) Courier.

The great battle fields of the late civil war are about to be illustrated by a series of views, published in chromolithographic style, and taken from oil pictures painted on the spot. George L. Frankenstein has been engaged in hard and incessant labor for three years on these views, and it is stated, traveled at least 4,000 miles to the different battle fields. The views, each measuring 14 inches by 10 inches, are to be published in one or more volumes, together with descriptions of the different battle fields, containing historical explanations.

Few persons are ignorant of the pernicious influence of sulphuric, nitric and muriatic acids upon the human organs of digestion and the entire alimentary canal, and yet it is declared upon good authority that much of the vinegar in commerce, or liquid sold as vinegar, is made by the use of these concentrated acids, at a cost of not more than one or two cents per gallon.

**Burglary.**—We hear that unknown burglars forcibly entered, on Monday night, the house of Rev. J. R. Dally, and carried away a number of articles of value. No clue to the perpetrators of the bold deed.—Wilmington Star.

A fascinating young Englishman left Cleveland suddenly last week, while under engagement of marriage with two of the belles of that city. A woman from England had come along that way, hunting her husband.

A man was found in his room at Cincinnati, dead, with his neck broken. The jury impaneled in the case rendered a verdict "that the deceased came to his death from excess of heat, and from drinking too much water."

A theoretically benevolent man on being asked by a friend to lend him a dollar, answered briskly: "With pleasure," but suddenly added: "Dear me, how unfortunate! I've only one lending dollar, and that is out."

## STATE NEWS.

### QUAKER FREAK OF LIGHTNING.

The sharp clap of thunder heard by the residents of this city on Thursday night about 7 1/2 o'clock, was paired by a stroke of lightning, that for its object the residence of Mr. Jno. D. Love, corner of Sixth and Bladen streets. Both the front and back doors of the house were open at the time the lightning passed down the length of the passage, tearing up the oil cloth covering, and passing through a small hole which it made in the floor went under the house, shivered several of the cross-beams, passed out, struck a post in the garden three some feet distant, and then entered the ground. Strange to say, but a comparatively slight shock was experienced by the family.

The house was supplied by a lightning-rod, and this lightning no doubt struck; but Mr. Love thinks there must have been some defect in this, that a fragment of the electric bolt detached itself, and entering the side of the house was conducted by the brass rod upon which the folding doors moved into the entry where the damage was done. To say the least this was a most singular freak.

Wilmington Journal.

**AN AGED LADY.—THE RELICT OF A REVOLUTIONARY SOLDIER.**—Mrs. Margaret Wells, an old lady now past 88 years, residing in the neighborhood of Rocky Point depot, in this county, yesterday made her appearance at the office of the Clerk of the Superior Court for the purpose of making affidavits necessary to obtain a pension from the government. She is the relict of an old Revolutionary soldier, and since his death continued to draw the pension allowed him by the government up to 1859 when her papers were lost. It is gratifying to know that this old lady can have this pension renewed and will receive the amount which has accumulated since 1859.—Id.

**WILL TEST THE QUESTION IN THE COURTS.**—The seven appointees of the Superintendent of Public Works as Directors of the Wilmington, Charlotte & Rutherford Railroad Company on the part of the State, held a meeting yesterday afternoon and decided to test the question of the validity of the appointments by the Governor in the Courts of the State.

Col. Robert Strange and M. London, Esq., have been retained as counsel, to whom the mode and form of testing the question will be left.

We learn that on Saturday, July 24th, about midnight, a body of men, armed with clubs, went to the jail in Pittsboro, from the jailer, unlocked the jail, liberated Mr. Dorsey. Davis, looked the jail without turning other prisoners loose, and left. The mob swore they would tear the jail down if they could get the jail open in no other way, and being in strong force, the jailer made no resistance. Persons who saw them estimate the number of the gang at from forty to fifty. They are said to have been entire strangers to every one there who saw them.

**Standard.**  
Hiram E. Stilley of Beaufort, has been appointed by the President assessor for the 1st district of North Carolina. Willie D. Jones of Wake, has been appointed assessor for the 4th district.—Id.

**A RATHER STRANGE DISCOVERY.**—A gentleman who was in Warren on Thursday, gives us an account of a discovery in that place on Wednesday rather startling, and one which leads to any number of conjectures. The floor of the building occupied by J. A. Johnson as a shoe shop on the upper end of Main street, fell in, exposing, discovering to the wondering eyes of those who were engaged in clearing away the fallen floor, the evidences of several persons having been at some time in the past stood away beneath the building—their bones, besides other portions of skeletons, being found under the floor. This of course could not be accounted for—the house is ancient, perhaps been there a century, has been used for various purposes in the course of its existence, having been a courthouse, jail and the abode of a man of medicine. There is no way of solving the mystery, and the fate of those who had been thus consigned to this hiding place must remain unknown.

Weldon News.

It is stated in the Cincinnati Commercial that the Hon. H. Greley is not only a pillar of the Rev. J. Chapin's church, but also one of its soundest sleepers.

Rev. Doub, one of the most eminent ministers in the North Carolina Methodist Conference, is in a declining state of health.

## BINGHAM SCHOOL,

MEBANVILLE, N. C.

Wm. Bingham, Rev. Bingham W. R. St. The session of 1869-70 begins August 25th, and continues forty weeks. The course of instruction includes the ordinary English branches, the ancient languages, French, Mathematics, Book-keeping and the elements of Natural Science. Expenses, including tuition, board, fuel, washing, books and clothing, \$300. Circular sent on application.

## FOUL PLAY,

By CHARLES READE, with the other works by the popular author, at

## LATEST NEWS.

**Washington.**  
WASHINGTON, July 30.—Revenue to-day over a million.  
The President leaves to-night.  
Sherman and Rawlins were consulted to-day regarding the efficiency and economy of the military in the South.

Creswell is still confined from his recent hurt.  
Appointment Clerk T. L. Tallock has been appointed Revenue Collector for this district.

The President has appointed Hiram E. Stilley Assessor of the first North Carolina District, and W. D. Jones for the fourth district.

In order to secure a fair election in Mississippi, the President will order the Board of Registrars of each County to be composed of one Radical, one Conservative and one military officer. The President will at present not interfere in favor of either party.

**Washington, July 30.**  
Hon. Lewis Dent, Washington:

DEAR SIR:—Having seen certain dispatches to the New York Press renewing the report that you would decline the candidacy for Governor of Mississippi on the National Union Republican ticket, we desire to know whether you adhere to your previously expressed determination on that subject. For the purpose of putting this matter finally at rest, we trust you will favor us with an early response. Very respectfully, &c., Geo. MOORMAN, E. JEFFERSON.

**WASHINGTON, July 30.**  
GENTLEMEN:—In replying to your communication, I beg leave to say that, while I cannot decline what has not been formally proffered me, you are at liberty to say to the National Republican party and the people of Mississippi generally, that in the event of my nomination I shall certainly accept it. I have never authorized any person to say I would decline a nomination if tendered me by the National Union Republican party of Mississippi, and I again assure you that my purpose to that end remains fixed and unalterable. I earnestly desire the restoration of the Southern States with Constitutions and laws that will effectually secure the civil and political rights of all persons. Very respectfully, Yours, &c., Lewis DENT.

To Col. Moorman and Judge Jeffords.

**New York.**  
NEW YORK, July 31.—The steamer "Alaska" has arrived, bringing advices from Japan that occurred upon the coast of Chili.

The American schooner "Rippling Wave" has been wrecked. Small-pox is prevailing at Valparaiso, and yellow fever at Rio Janeiro. Henry Keep is dead, and the Board adjourned in consequence.

## Virginia.

**Richmond, July 31.**—J. W. Jenkins, Chairman of the State Central Committee, of the Wells Republican party, having written a letter to Dr. Gilliam, Chairman of the State Central Committee, of the Walker Republican party, urging that the two parties now renounce for carrying out Republican principles in the State. The latter gentleman writes a letter in reply, saying that the Walker Republicans left the Wells party because they were either forced to do so, or oppose the policy of the President. After alluding to the almost unanimous endorsement of Republican principles by the white men of the State, and as asserted that the colored people who were misled by the Wells leaders, are now flocking by hundreds to the Grant-Walker standard. He concludes as follows: "You ask for a coalition of the two wings of the Republican party—I cannot admit that the party is divided, on the contrary, I claim that the Grant-Walker party is the National Republican party of Virginia, representing the policy of the President and of Congress, and as such has no divisions to heal."

To the late Wells party I have only to say, we shall gladly welcome them to our ranks, for we are unwilling to deprive any class of men of the innumerable blessings that must flow to Virginia from an unequivocal enforcement of those national principles of which President Grant and Congress are the head and front.

Col. Thos. P. August, a prominent lawyer, died this morning. He was an officer in the Mexican war, and a Colonel of the 15th Virginia Confederate Regiment during the late war, and former State Senator from this district.

## Foreign.

**LIVERPOOL, July 30.**—The Cotton Supply Association have adopted a resolution looking to the development of railways in India. In order to facilitate the exportation of cotton from that country, this course is taken in consequence of the inefficiency of the railway from the United States. The lack of American cotton is not large enough to keep the mills of Lancashire fully engaged.

**MADRID, July 30.**—The Carlist movement may be regarded as having been put out.

**Charlotte Cotton Market.**  
CORRECTED DAILY BY STEPHENS, MAGALAY & CO.  
CHARLOTTE, August 2, 1869.  
COTTON.—Market unchanged. None offering.

BREM, BROWN & CO.

## CHARLOTTE FEMALE

INSTITUTE, CHARLOTTE, N. C.

The next session of this Institution will commence on the 1st day of October, and continue until 30th of June following. For catalogue containing full particulars as to expenses, course of study, regulations, &c., apply to

REV. R. B. BROWN & CO., Charlotte, N. C. July 18-69

We are authorized to announce the name of H. J. WALKER as an independent candidate for Constable of Charlotte Township in the ensuing election.

JOHN MCCONNELL respectfully announces him as an independent Candidate for Magistrate of the Charlotte Township.

## SPECIAL NOTICES.

A book by General Lee will awaken such special interest, that we are glad to call attention to it. The UNIVERSITY PUBLISHING COMPANY of No. 4 Bond Street, New York, announce that they have now in press, and will issue in a few weeks, "Memoirs of the War," by Gen. Henry Lee, thoroughly revised and corrected by Gen. R. E. Lee who has aided, also, an entirely new biography of his father, prepared by him from private and personal materials never before used. It will be a large and handsome octavo volume, illustrated by new steel portraits of Gen. Henry Lee and Gen. Nathaniel Greene; beautiful steel engravings of "Marion Crossing the Pedee," and the "Surrender of Cornwallis," and five original maps and plans. Our readers need not be told that this is a work of great interest and value. It is the standard history of military operations at the South during the revolutionary war, and as such is a book which every reading man should possess; but its interest and value are both greatly increased by Gen. Robert E. Lee's thorough revision and correction, and by the valuable biography of his father which he has written and added to it.

We are sure that this announcement, alone, is sufficient to give the book a very great sale, but when we add that Gen. Lee is personally interested in its publication, such a sale is made certain.

As we learn that the book is to be sold by canvassing agents only, those who desire to engage in its sale should make early application to the publishers.

## The Conditions of Health.

It is idle to expect health if the precarious necessary to secure it are neglected. The human organization is a delicate piece of mechanism, and requires as much intelligent care and watchfulness to keep it in order, as are requisite in the management of the most complicated combination of levers, wheels, pistons.

At this season of the year the body is peculiarly sensitive, because it is greatly weakened and relaxed by the continuous heat. The skin, in summer, with its millions of pores wide open, is a very different sort of tegument from the compact shroud covering which it becomes under the action of the winter's cold. The muscles, too, are comparatively flaccid, the nerves tremulous, the blood poor, and the whole frame less capable of enduring fatigue and resisting disease, than in cool weather. These indications of a depressed condition of the vital forces are so many unmistakable hints that nature needs reinforcing.

Ordinary stimulants will not effect this object. They inflame and excite, but do not strengthen. The only preparation which can be depended upon to impart stimulant vigor to the system, and enable it to endure the heated term without giving way under the pressure, is HOSTETTER'S STOMACH BITTERS, a tonic and corrective so pure, so harmless, so utterly free from the drawbacks which render many of the powerful astringents employed in medical practice more dangerous than the ailments they are employed to cure, that it may be administered without fear to the feeblest female invalid, or the most delicate child. The cathartic and alterative vegetable ingredients, which are combined with those of a tonic nature in its composition, keep the bowels moderately free and perfectly regular, while the work of invigoration is going on. The finest blood depurants which the herbal kingdom affords are also among its components, so that it re-purifies, purifies and regulates the system simultaneously.

## ASIATIC CHOLERA IN CHINA

Tuscon, China, Aug. 23, 1866.

Messrs. FARRAR, DAVIS & SONS,

Dear Sirs:—During a long residence in China, I have used your invaluable Pain Killer, both in my own family and among the Chinese, and have found it a most excellent medicine. In the summer of '62 and '63, while residing in Shanghai, I found it an almost certain cure for Cholera, if used in time. Indeed, using it in a great many instances, I do not remember failing in a single case. For three years I have been residing in this place, more than fifty miles from a physician, and have been obliged of ten to fall upon my own resources in cases of sickness. The Chinese came to us in great numbers for medicine and advice. Though without medical knowledge ourselves, the few simple remedies we can command are so much in advance even in their physicians, that we have almost daily applications. We allow them to come, because it brings us in contact with them, and opens a door to usefulness. In diarrhoea, cholera vomiting, cholera, coughs, &c., your Pain Killer has been my chief medicine.

Yours very truly,

T. P. CRAWFORD.

CHARLOTTE.

Tuesday, August 3, 1869.

S. L. RIDGEL, Agent of the National Life Insurance Company and the N. C. Mutual Home Fire Insurance Company, is also Agent for the Daily and Tri-Weekly Times and the Weekly News.

## JOB-PRINTING.

All kinds of Job-Printing executed at the Times office.

We have just received a fine assortment of the latest styles of type, and are prepared to execute at short notice any kind of printing that may be called for, in style unsurpassed by any establishment in the State, and at moderate prices.

## New Advertisements.

The following New Advertisements appear for the first time in this morning's issue.

Koskoo—Dr. J. J. Lawrence.

## REGISTRATION.

The Registration Books for this Township, will be open to-day, at the office of J. N. Hunter, J. P., and will keep open until after the election.

See notice of property to rent. This is a very desirable place, and to any one who would like to keep a few cows or raise vegetables for market offers great advantages. There are six acres of land now in a high state of cultivation; a good orchard, with an abundance of excellent apples; a fruitful garden and a well of pure and cool water in the yard. The house is not attractive outside, but the internal arrangements are convenient and comfortable. It contains five rooms and out-buildings for a good sized family. The property is just opposite the Female College and within 15 minutes walk of the public square. It will be rented with the growing crop, and two cows either sold or hired with it. Possession given to suit the renter.

Apply at this Office.

We are requested by Col. Thos. H. Brien to withdraw his name from the published ticket as a Candidate for School Commissioner. He is induced to do so because of his repeated and often long continued absence from the city, and of his constant occupation while here. Many will regret this announcement, as there is no more popular and highly esteemed gentleman in this city than the Col.; but his reasons are sufficient and he ought to be excused. In his stead, at the suggestion of many friends, we have substituted the name of Capt. W. E. Strick. We take great pleasure in recommending this gentleman, for there is no truer or better man in this or any other community.

We learn that the Radicals had a meeting on Saturday night, and nominated a ticket. Who compose it is not known to us, but we have heard it rumored that John Schenck and E. Fellings will be two of the candidates for Magistrates. We are in the dark as to the movements of the H. O. A. and U. L. A.; but we caution our friends to register their full strength, and then every man who appreciates good government should be at the polls on Thursday.

BEAUTIFUL.—We saw on Saturday at Butler's a silver goblet, intended by the members of the Hornet Steam Fire Company for a young lady of this city. The goblet is of silver, about 8 inches high, and chaste and elaborately carved. As a gift it is as appropriate as it is merited. The name of the lady is engraved on the shield—that of the Company—and the motives which prompted the presentation on the pedestal. The whole is exquisite, and exhibits the rare skill of the designer and taste of the selector. We forbear to enter into details until after the presentation. In the meantime the goblet, filled with rare and beautiful flowers, can be seen for a few days at Butler's.

To the Voters of Charlotte Township, No. 1.

About the 1st of July, 1868, a commission was received in this city from Gov. Holden, to the effect that your humble servant had been appointed a Justice of the Peace, which commission I publicly declined to accept for many reasons which I will not here pause to enumerate; but will only give one—I felt that I was not quali-

fied to discharge the duties of the office. Then came the impost trying time of my short life. Committee after committee of the justly respected citizens of our far-famed city waited upon me, and insisted that I should accept the appointment. I still plead non-qualification; and during the time I consulted with some of the most prominent members of the bar. There advice was by all means to accept the office; we want some well disposed man to sign our warrants for us. At about the same time an esteemed friend and prominent citizen proposed to give me the free use of his Library, he having been an Ex-Officio; so with this advantage, and many others that could be enumerated, of posting myself, and being anxious to do anything in my power to restore peace and prosperity, and to become useful in my day and generation, I accepted the office on the 14th of July, 1868. Since that day I have been filling the office, and with what degree of credit to those who were the means of my accepting the office or to myself I have discharged its duties, devolves upon my fellow citizens to decide. I close these reasons by adding that I have made sacrifices for the intended good of this community which can all be repaid on the day of election by casting your votes in favor of

Yours Respectfully,

J. NICK HUNTER.

## SCHOOL NOTICE.

I will resume the exercise of my School on MONDAY, the 1st SEPTEMBER NEXT. The Female Department will be under the control of Mrs. WARRING.

SCOTCH SNUFF

Has been fully tested and pronounced by all amateur smokers to be the best SNUFF now in use. Its superior taste and purity from all drugs and impurities renders it commonly used in the preparation of other snuffs, and has gained a wide world reputation.

Do not fail to try it for you will like it. Ask for it and take no other, and see that our name is on every package.  
For sale by  
Stonhouse, Macaulay & Co.,  
J. A. Millott & Co.,  
D. M. Rigler,  
W. H. Richards & Co.,  
Dr. J. N. Butts,  
Carson & O'Brien,  
Scarlett, Frazier & Co.,

[Aug 1-1m]

## MONEY

is an article despised by some, and we are now prepared to show how all may possess it in abundance, by following a few simple instructions, which will be given

## FREE

of charge, except the trifling sum of 25 cents, as a guarantee of good faith.

The business is inexhaustible, and thousands are now engaged in it, while to their most intimate friends the cause of their great success and prosperity remains a mystery. Any party engaging will frequently receive called packages by express or mail, and further than this the business is all to yourself.

## AS

the article can be carried in the vest pocket, except when wanted for use. It needs your attention but one or two days in the week, or a couple of hours daily, which can be after other business is over. No additional rent, taxes, or help of any kind; all engaging with us must be direct.

## WATER.

NO OLD MAIDS NOR MINISTERS WANTED, but one good smart man in every town who can keep his business to himself, act confidently with us, and make from \$5 to \$10 for every hour's service. Act promptly, strike while you have the opportunity, and a FORTUNE is yours. Inclose, with your address, one prepaid directed envelope and 25 cents, and you will receive full particulars by return mail. Address, ROYCE & CO., 66 Wall Street, N. Y.

aug 1-1m

## DR. BANNING'S CELEBRATED

# KOSKOO!

THE GREAT REPUTATION

A GREAT AND GOOD MEDICINE

THE LARGE NUMBER OF TESTIMONIALS

AS A BLOOD PURIFIER IT HAS NO EQUALS

BEING POSITIVELY THE

MOST POWERFUL VEGETABLE-ALTERATIVE

YET DISCOVERED

DISEASES OF THE BLOOD.

"The Life of the flesh is in the Blood," is a Scriptural maxim that science proves to be true. The people talk of bad blood, as the cause of many diseases, and like many popular opinions this of bad blood is founded in truth. To say nothing of those humors that are hereditary, we can easily see how the blood may become bad from imperfect Digestion or failure of excretion, and how this may influence the process of Nutrition, and thus influence all the functional activities of the body.

The symptoms of bad blood are usually quite plain—bad Digestion—causes imperfect nutrition, and consequently the circulation is feeble, the soft tissues lose their tone and elasticity, and the tongue becomes pale, broad, and frequently covered with a pearly, white coat. This condition soon shows itself in roughness of the skin, then in eruptions in the face, and in various diseases, and when long continued, results in serious lesions of the Brain, Liver, Lungs, or urinary apparatus. Much, very much, suffering is caused by impure blood. It is estimated by some that one-fifth of the human families are affected with scrofula in some form.

Persons suffering from any bad humor are very liable to have it settle on the Lungs or some other vital organ. The only safe rule is to remove the Blood poison at once, before it settles itself upon some vital point.

When the Blood is pure, you are not so liable to any disease. Many impurities of the Blood arise from impure diseases of large cities. Eradicate every impurity from the fountain of life, and good spirits, fair skin and vital strength will return to you.

WHICH KOSKOO HAS ATTAINED IN ALL PARTS OF THE COUNTRY AS

A GREAT AND GOOD MEDICINE

has induced Dr. Lawrence to enlarge his Laboratory and facilities for manufacturing, so as to be enabled to supply the extraordinary demand for it.

which are constantly being received from Physicians and persons who have been cured by its use, is CONCLUSIVE PROOF of its REMARKABLE VALUE.
